

# Green Ink and Printing Technology Conference 2019

May

**8-9**

**Shanghai China**

## Background

The printing inks market is expected to reach over US\$ 25 billion by 2025, expanding at an annual rate of 4.6% from 2017 to 2025, Packaging and publishing/commercial printing are of course the two major application segments for this market. Apart from crude oil derivative and inorganic pigments, development of non-toxic raw materials such as graphene, carbon and modified celluloid are leading the way for the development of new materials. And this market is strongly affected and driven by advancements in technology and processes such as ink-jet products and digital printing. Finally, there is growing interest in adding electronics to everyday items, such as wearables, smart packaging and smart labels and Conductive inks and materials are essential to the world of flexible and printed electronics.

With the impact of the Internet and digital life, the Sino-US trade war, high cost and unstable supply of raw material, plus a series of strict environmental protection policies, our ink industry is facing enormous challenges. The "Green Ink and Printing Technology Conference 2019" will bring the leading companies and experts together to share the latest research result, bring good solutions for the ink, printing and packaging industries.

## Why attend

### Concurrent Events:

- China Coatings Summit & Expo 2019
- Coatings Industry-Ringier Technology Innovation Award 2019

**Concurrent Event**-China Coatings Summit & Expo 2019,  
- Richer Information, Wider Business Connection

**Feature: Policy+ Innovation + Improvement all in one**

Following the industry orientation, interpreting the new policies and standards of 2018-2019;

Tracking industry hotspots, sharing market trends of environment friendly ink/ electronic ink and new technology, inspiring industrial innovation;

Taking deep into the domestic market, focusing on the operation of Chinese ink and printing enterprises, solving the key points and increasing efficiency.

### Law & Market

- Environmental Certification Standards and Policies of China Ink Industry **Hot**
- Standards of Gravure Ink & Flexographic Ink Under New Environment Policy **New**
- Standards of Restricted substances concerning printing inks for packaging materials **New**
- Safety of packaging ink for Food contact materials **Hot**
- Trends of Domestic and Overseas Ink Market
- Inkjet ink & Digital Printing Market **Hot**
- Application of Electronic Ink in Wearable Devices **Hot**
- New Application and Development of LED/UV/EB Ink **Hot**
- New applications and development in flexible printing

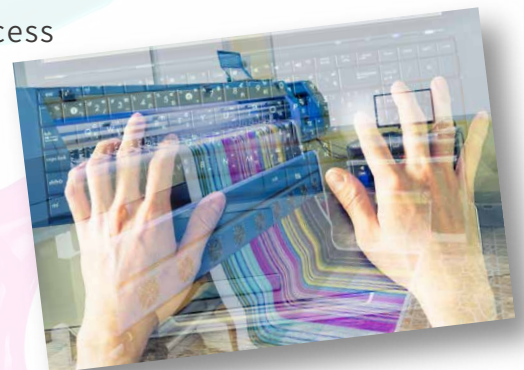

### Raw Materials & Technology

- Research and Development of New Low Migration Resin **Hot**
- Progress in New Type of Polyamide Resins For Water-based Ink
- Research and Prospect of Environmental Friendly Resins for Offset Printing Ink **Hot**
- Application of Acrylic Resin in Ink Binder
- Application of Graphene In Conductive Ink
- Nanotechnology in the Field of Ink Manufacturing
- Self-curing Acrylic Resin for UV Inks Without Photoinitiator

### Manufacturing & Application

- Application and Technical Problems of Water-based Ink for Gravure Printing
- Innovation & Technology of Ink Production Equipment and Process
- Test Standard of Water-based Ink
- Ink Surface Control Scheme
- Performance and Selection of Digital Printing Ink
- Application of UV Technology in Screen Printing

### Printing & Packaging

- Digital Printing and Intelligent Packaging & Intelligent Label Printing **Hot**
- Application of Environmental Friendly Packaging for Ink
- Planning for Green Printing in the Future
- VOCs Treatment and Solution of Solid & Water Waste for Ink and Printing Enterprises **Hot**

## Previously Invited Speakers (Partial List)

**Mr. C. Dale Pritchett**  
Rodman Media, Coatings World  
Magazine, Ink World Magazine Group Publisher

**Mr. Xianhe Yu**  
Senior Engineer  
Hangzhou Quality Technology Supervision  
and Inspection Institute

**Mr. Xiaochu He**  
Senior Engineer  
Shanghai Academy of Environmental Sciences

**Mr. Yong Peng**  
Professor  
State Key Laboratory of Advanced Technology  
for Materials Synthesis and Processing  
Wuhan University of Technology

**Mr. Gang Li**  
Printing Ink Technical Service Manager  
Evonik Specialty Chemicals (Shanghai) Co.,Ltd.

**Mr. Guoliang Lin**  
General Manager  
Fujian Green Spring New Material Co., Ltd.

**Mr. Guowen Liu**  
Department Director of Quality Control  
QA Department  
New East Ink Co. LTD.

**Mr. Feng Lian**  
Sales Manager  
Wanhua Chemical Group Co., Ltd.

## Who Will Attend

### By Job Title

- GM/VP/CEO
- Technical Director/Manager
- R&D/Production Director/Manager
- Purchasing Manager/Chemist
- Sales/Market Manager
- Quality/Safety Manger

### By Industry

- Ink Manufacturers
- Ink Raw Materials Suppliers
- Equipment Manufacturers
- Testing and Certification Organization
- Printing Manufacturers
- Packaging Enterprises
- Government, Associations and Academic Institutions
